Yes, I think the 7th will work for both the transload contractor meeting and the AOC discussions if the rest of the EPA group can travel to the Arkema site for an afternoon meeting in the conference room. We can meet with the contactors from noon to 1:00, then the rest of the EPA group could join at 1:00 for AOC discussions. We can bring in lunch at some point. Let me know if that works for EPA and I'll confirm with our group as well.

Hello Mike, I was wondering if targeting Thursday March 7 would work for your team? I could arrive the evening before if that would help make time for both transload discussion as well as the negotiations. Unfortunately I'm not available on 3/5,6 that week.

Thank you.
